

**100% Gel Infused Foam**, provides maximum comfort with the added benefit of *wicking away heat* from the body for a cooler, more restful, deeper sleep throughout the night. With the *infusion of Gel*, into our durable **MemoryTouch®** foams, sleep sets using this foam are a unique, superior product that offer a greater pressure relief and a cooler sleep for luxurious comfort.

**1** **Theracool® PCM™ Cooling Fabric** is a new technology in fabrics that provides uniform comfort over a wide range of temperatures. Our material adapts to you, continuously absorbing excess heat and releasing it as you cool.

**4** **Theracool® Advanced Gel - 100% Gel Infused Foam** provides maximum comfort and greater pressure relief with the added benefit of *wicking away heat* from the body for a cooler, more restful and deeper sleep.

**3** **Energex™ Foam** is an energetic alternative to conventional visco foam retaining the advantages of visco foam without the slow recovery. Energex is like visco with a bounce! **Energex Foam** provides uniform comfort over wide temperature ranges.

**5** **HD Ultra Performance Foam -** Our **Performance Foams** provide excellent support, durability, and comfortable sleep surfaces for years to come.

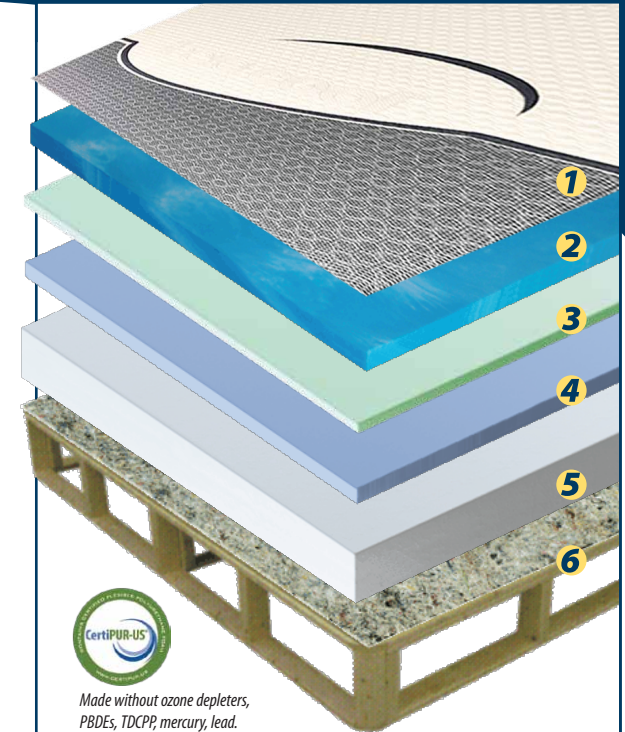

**6 Amish, Hand-Crafted SOLID WOOD FOUNDATION**

Our solid wood, hand-built foundations, are made in the USA. These foundations are engineered to provide the proper support over the lifetime of each mattress.
